About Me

Passionate Full Stack developer certified in Frontend Development, Database Management, and Java Programming through Skill-lync. Seeking to join an organization that values expertise and collaboration.

Work Experience

Skill-lync | Full stack developer intern
2023 – Present

Key responsibilities:
- Collaborating with guide to design and develop web applications using front-end and back-end technologies.
- Actively contributing to discussions and meetings.

Projects

Netflix Clone: React JS web app mimicking Netflix with personalized recommendations and search functionality.

Point of Sales: The Point of Sales system is a Java-based application that enables businesses to manage their sales operations. It uses a MySQL database to store and retrieve product and customer information
